### THE STREET WORK OF 1892

Statement Showing the Streets Permanently Improved, and What It Cost.

Almost Four Hundred Thousand Dollars Expended in That Direction-Flack's Contract Canceled-Mortality Report.

Now that the end of the year is approaching it is interesting to know how many streets of the city have been permanently improved during the past twelve months. In this time seventeen streets were paved either with brick or asphalt (alleys not included), and the total cost of the work amounts to \$399,686,34. A good many of these streets have been improved with a view to connecting other paved streets and making continuous roadways of good material, with the down-town streets as a nucleus. The following list shows the streets that have been permanently improved during the past year:

There are at present in the city 9 cases of diphtheria, 11 of scarlet fever and 3 of

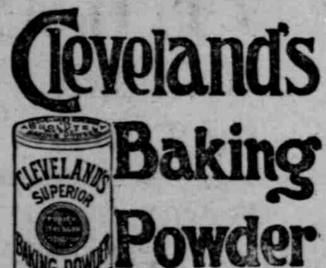

Flack's Contract Canceled. Yesterday morning the Board of Health held a meeting, and canceled the contract held by Joseph Flack for furnishing milk to the City Hospital. Several complaints have from time to time been made that the milk furnished the hospital was not what it should be, and the Health Board, the other day, got hold of two samples. An analysis showed both to be bad. A warrant for Flack's arrest was issued yea-terday, upon the authority of the Health Board, and also one for his driver. Judson George. A warrant was also issued for the arrest of John Given, of whom Pink claimed to have purchased milk on the supposition that it was good. The Health Board does not propose to let up until the practice of selling bad milk is

Sanitary Officers' Report, The monthly report of the sanitary offipers is in. It shows that five wells were analyzed and one condemned, 1,350 general inspections made, and 188 yards and 141 alleys cleaned. Vaults were cleaned to the number of 210. Ninety-six contagious diseases were carded and seventy-one houses disinfected. Twenty barrels of sweet potatoes and 412 bushels of cranberries con-

Investigating the Sullivan Case. The coroner began taking testimony vestery in the Sullivan case. Flavius Van Voris appeared at the inquest on behalf of the family and Mr. Hugg for Herschell Harris, the druggist, by whose mistake, it is claimed, Sullivan's death was caused. Mr. Harris testified yesterday morning that he could not tell whether he had made a mistake in filling the prescription or not. The stomach of Mr. Sullivan was yesterday placed in the hands of Dr. Robert Ben-ton, the High-school chemist, for the purpose of making the analysis, which will require several days, and probably a week.

"Believing that the vast amount of work required by the necessary arrangements for the G. A. R. encampment, to be held in Indianapolis next year, should be carried on by a special organization of citizens, the committee on assemblages of the Commercial Club, which has had charge of the work of bringing the encampment to this city, unanimously asks that Col. Eli Lilly accept the chairmanship of an executive committee, which we request him to form by selecting chairmen of such special committees as may be believed to be useful; that he nominate the other officers of the organization; that he be requested, with the assistance of such persons as he may select for the purpose, to prepare a plan of work and rules for the government of the organization, and that he report his nominations of officers and members of the executive committee, together with plans and rules of organization, to a meeting of citizens to be called by him."

Dec. 4, in their new hall, corner North street and Noble. An interesting programme has been arranged. All are cordially invited to attend.

The Rev. W. F. Taylor, pastor of the First Baptist Church, this evening begins a series of sermons on illustrations of Christian life obtained from the work-shop and factory, the subject this evening being "The Christian Duty of Industry."

A special service, lasting one hour, for men only, will be held at St. Paul's Church, corner of New York and Illinois streets, this evening at 7:30. Rev. G. A. Carstensen will preach on "Impurity." Double male quartet will furnish the music. All men are invited and will be heartily welcomed. A number of Haughville citizens have petitioned the Humane Society to investigate charges of cruelty to street-car mules. The officers of the society had a conference with Frenzel upon the subject and he said he was anxious for the society to prosecute any employe guilty of the offense, and that it it was proven upon them they

May Come Off at Last.

This Week's Road Congress Exciting a Vast Amount of Interest-Weight of Racing Machines.

The proposed Sanger-Zimmerman r ace, which has been promulgated, declared off and declared on again, is causing no end of a row all along the line. It was first given out that the prize to be run for was \$1,000 hard money. This was denied both men, saying that they not care to give up their smateurism for that amount. Then the arrangement was that they were to compete for a trophy worth that amount. Now it is asserted that the backers of the "Jersey Skeeter" are demanding a \$10,000 side bet from the backers of Sanger. Mr. Troy, an Eastern 'cyclist, who is Zimmerman's backer, has been in Chicago and has talked a good deal in the newspapers. He said that if the Sanger people want to race they can cover his \$10,000 with a like amount and he will trot his man out. The Secrombe-Bolte Company, of Milwaukee, is Sanger's back-er, and the members of it say that Troy Lee, officer of the day; William H.

Messey is a supplied to the present in the season of 1893. Meanwhile those who are interested in

keeping cycle racing an amateur sport are speculating and wondering as to the outcome. A thousand-dollar trophy is surely a rich stake for an amateur to contest for, and out of that fact the Sanger people are making considerable capital by intimating that the other contingent want to break over the traces. It looks very much as though the muchheralded match will fall through after all, and the chance of a good race be spoiled. and the chance of a good race be spoiled.

The road congress which meets here this week is the principal topic of discussion among local wheelmen at the present. Every county in the State will have a representative present, and a number of men from out the State who are adepts either in the practical art or the theory of road-making will be in attendance. The bicycle men are interested chiefly in the address of Mr. Potter, editor of the L. A. W. "Good Roads," and also in a paper written by Colonel Pope, which will be read. Colonel Pope is at the head of one of the largest bicycle manufactories in the world, and is one of the foremost agitators of the road question in this country.

misunderstanding has gotten out among some of the participants of the Thanksgiving "turkey run" in regard to the distribution of the feathered prizes when the event was over. It was announced before the race that a turkey nounced before the race that a turkey would be given to each man of the first half of the finishers. That is, should eight men finish, four would get prizes. Previous years they were given to the first five who inished and by some it was believed to be the case this year, which caused the trouble. There were eleven starters and eight finishers, and four turkeys were distributed. It was supposed to have been understood by all, and nothing unfair was intended.

The new clothes have come. They were all slike when they first arrived, except as to size, but now their own makers couldn't tell which was who. They were not dress suits. Simple, unpretentious canvas jackets, and padded knee breeches they were. They went out and had a few practice games with the Zig-zag foot-ball team, and now the padding in the knees is along up about the waist-band, the cleanly surfaces of the jackets look like prairie landscape and Tom Hay has a back that he wishes belonged to some one else. But the team is still anxious to take a fall out of something beside its suits, and waits for something beside its suits, and waits for some-body to dispute its prowess.

There is little or no riding going on among wheelmen these days of alternate wetness and sun. The Zig-zag Club has practically gone into hibernation at its club-house. A few of the more industri-ous members work themselves into a sweat or a stew on the home trainer, and the rest are devotees of billiards and whist.

The weight of racing-machines during the last season ranged from twenty-eight to forty pounds, and they were declared to be as light as was practicable. Last week, in over rough country roads, which weighed but eleven and three-quarters pounds.
Berlo weighs 170 pounds, and those who
saw the trial say that no apparent damage had been done to
the machine at the end of it. Berlo has been at work perfecting the machine for some time, and declares that he has a practical roadster in it. He will use it for racing next season. The following is a description of it: The frame of the machine is of twenty-two gauge gun-barrel steel tubing, built on Berlo's modification St. Joseph's Church Hall Association will of the Humber pattern. The wheels are give a musical programme Sunday evening, twenty-seven inches in diameter, with wooden rims fitted with half-inch pneu-matic tires and steel spokes. The bearings and cranks are of the best tube steel, the ball bearings are one-quarter, three-eighths and one-half inch. and the machine is geared to sixty-six inches. No forgings whatever are used, all joints being hand-made lap, while the wheel base is fortyfour inches. The machine will be exhibited at the world's fair.

West-Side Iron Hallers Indignant at Judge Taylor's Allowance.

The Haughville Iron Hallers are up in arms against Judge Taylor for making what they term robbery in allowing the three legal firms interested in the suit against the order \$15,000 for their services and \$300.33 for expenses actually incurred. There will be a musical entertainment given by the Sunshine Club, at Masonic Hall. Wednesday. The following programme is announced: Miss Hattle Clevinger, recitation; Miss Ada De Golyer, vocal solo; Misses Nora and Minnie Reisinger, piano duet; Miss May Daller, vocal solo; Mr. Walter C. Tuttle, mandolip solo; Mr. Charles W. Mapes, guitar solo; Mr. J. W. Danner, cornet solo; Mr. Frank Dynes, banjo solo; Mr. Clay H. Tuttle, whistling solo; Indianapolis Pressmen's Glee Club.

And \$500.83 for expenses actually incurred. They have called a special meeting for Wednesday night to protest against the allowance, and will present a petition to Judge Taylor asking that the order making the allowance be rescinded.

One of them, in speaking of the prospects for the members of the order, said that it was gloomy indeed. "The allowance, I understand, is not final." he said. "If the attorneys are retained until the concern is wound up what will their additional wound up what will their additional charges amount to? Then there is Judge Taylor's son, the receiver's attorney, the receiver himself and his assistants to pay. It begins to look as if they would have to evy an assessment on the certificate-holders to pay the expense of winding up the affairs of the order."

Proposed Zimmerman-Johnston Race OUR THEME:

You live in Indianapolis (or at least in Indiana), so do we. For this reason we believe the argument we shall advance as to why you should smoke this cigar, will prove sufficient:

- 1. It is made by Indianapolis workingmen.
- 2. The money he earns is expended here. It goes to the butcher, the baker, the clothier, the dry-goods man, shoe man, the doctor, and to all his neighbors.
- 3. The landlord gets his portion. When the Indianapolis cigar-maker builds a house, the carpenter, brick-layer and other tradesmen get their share.
- 4. The money he earns feeds his children and sends them to school along with your children.
- 5. It makes him a good and prosperous citizen, a valuable addition to the population.
- 6. In helping him you help yourself-much better that than buying a cigar made, perhaps, in a filthy Eastern tenement-house.
- 7. The Capital City workman works in a clean shop. He is an independent man, and will not work as a sweater.
- S. He takes a personal pride in producing a perfect product.
- 9. He looks upon the reputation of the Capital City cigar as his own, and never slights his work.
- 10. He is one of us. Encourage him by using the commodity from the manufacture of which he earns his livelihood.

There are other reasons which pertain more to the cigar than to the workman.

For some time past C. L. Benton, a "fakir." has taken his stand each night at the corner of Meridian and Washington streets and palmed off upon the public an alleged microscope. As an attraction to hold the crowd while he could make the sales he has been in the babit of exhibiting to them a diminutive kitten as black as black can be.
